The Topaz® SigLite® LCD 4x3 is Topaz's medium-sized, pressure-sensitive, low-cost electronic signature pad with transflective LCD that displays “electronic ink” under the pen tip during signing. It features all the high quality biometric and forensic capture techniques of a SignatureGem® LCD 4x3 signature pad but with a low-cost touchpad and stylus in place of the more rugged digitizing pen and inert tempered glass surface.

Bundled secure software APIs provide for interactive text, graphics, and pen-tap hotspots and checkboxes which enable users to navigate screens and select preferred options.

The SigLite LCD 4x3 shows the signature on the signature pad, as well as the computer screen.
